

MARCHENDA FAYZA MADJID

Student at Information Technology, Faculty of
Computer Science, Brawijaya University

PROFILE

I've experience in Graphic Design ever since High School and also learn about programming since 2018. Currently, I'm focusing myself on Software Development, such as Web and Mobile Development including UI/UX Designer.

I want to create many new experiences, meet new people and learn new things. I like to help others and keep the hardwork to be an agile, grit and strive to be an excellent person. I also enjoy new challenges that enable me to grow.
